## Virtual Education Programme 2020 / 2021

Our 9-month programme of leading hip preservation masterclasses and seminars including our virtual 2020 Annual Scientific Meeting

### Live Webinar

## Navigating Through the Covid Cloud: How the Novel Coronavirus Has Changed Hip Preservation Practice

Saturday 15<sup>th</sup> August 2020 | 10:00 EDT New York 16:00 CET Paris

Join us for the first expert led webinar session within ISHA's 2020 / 2021 virtual education programme. We will be discussing the impact the Covid pandemic has had on hip preservation practices and will hear from clinicians who have had first-hand experience in delivering hip preservation treatment at the heart of the pandemic, along with practical advice on how to resume elective procedures and deliver remote patient management.
